ABSTRACT

The Missouri Commission on Higher Education conducted its sixth annual survey of four-year public institutions in 17 Middle Western and border states to determine what fees, except those for laboratory and breakage, were charged to students for the regular academic year. Only one of the 129 institutions queried failed to respond. Those participating in the survey are located in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas and Wisconsin. Tables illustrate basic tuition and fees for resident and non-resident students at state colleges and universities; the maximum, minimum, and average charges for room and board at 96 institutions; basic annual fees, by institution, for resident and non-resident students; and annual high, low, and mean room and board charges. SIXTH ANNUAL SURVEY OF STUDENT CHARGES AMONG STATE-SUPPORTED COLLEGES AND UNIVERSITIES IN 17 STATES

For the sixth consecutive year, the Missouri Commission on Higher Education has conducted a study of undergraduate student charges assessed in the public institutions of seventeen states. The survey is confined to the middle western and border states which are reasonably near Missouri, and it covers all four-year public institutions in those states. Of a total of 129 institutions queried 128 responded and are reported herein. Data for the last three years, which are shown for purposes of comparison, were compiled in the same manner and using the same mailing list.

Institutions surveyed are located in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas and Wisconsin.

Two classifications of institutions are used -- the major public universities and the other four-year public institutions, most of which are state colleges in program if not in name. In a few states such as Michigan two or more were classified in the major university category because of the size and breadth of programs.

The fees reported are only those universally charged and do not include such assessments as laboratory and breakage fees. They constitute the amount charged for the regular academic year (two semesters or trimesters and three quarters). A few colleges reported their fees in terms of charges per credit hour; in these cases an annual amount was calculated on the basis of 30 semester hours or 48 quarter hours.

ANNUAL ROOM AND BOARD CHARGES

The survey is based on information from 96 state colleges and 23 universities. Nine other colleges which do not provide food services or which have no residence facilities are not included.

In those instances where an institution reported a maximum and a minimum charge but no average charge, the Commission took the liberty of calculating one to complete the record.
